***Detailed Action***

This is the second Office Action corresponding to amendment of Mar 31, 2008. The application contains 16 claims. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 112***

Claims 3-5, 9, 15 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. No proper antecedent is found in claim 3 for “the pin”.

***Claim Rejections - 35 USC § 103***

Claims 1, 2, 6-8, 10, 12 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Casey (Pat No 1,576,307). The patent to Casey discloses a suspension hook comprising an end piece (a’), lugs (attached to the end piece), and plates (b4). As to claim 7, the spacer is disclosed as having two faces (b2). It is important to mention that the spacer is not a positive element of the invention, as accordingly it has no patentable weight. As to the welding fixing, the same is known and it would have been obvious to secure the elements of the invention by means of welding. As to claim 17, Casey can be used in a vehicle.

***Allowable Subject Matter***

Claims 3-5, 9, 15 and 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.
